

# THE HAND & UPPER EXTREMITY CENTER OF GEORGIA

ADULT & PEDIATRIC

Specialized Care You Can Trust

The Hand & Upper Extremity Center of Georgia is the **Southeast's preeminent practice** for specialized hand and upper extremity care.

Our **fellowship-trained orthopedic surgeons** are **experts in hand and upper extremity care** for **athletes of all ages** and are:

- Team physicians and consultants to professional, collegiate, and high school athletes
- Known throughout the Southeast for the most advanced treatment of sports injuries, arthritis, Dupuytren's disease, congenital differences, and nerve injuries
- The only hand surgeons at Children's Healthcare of Atlanta (CHOA) and the only hand surgeons specializing in brachial plexus and peripheral nerve injuries
- Experts at providing comprehensive surgical and nonsurgical care to adult and pediatric patients—there are no age cutoffs

**At each visit, your athlete will be seen by one of our doctors—not a nurse practitioner or physician assistant.** Therefore, every treatment decision is made directly by a doctor, and if surgery is required, that same doctor will be the one performing the surgery.

For unexpected acute bone, joint, and muscle injuries, we offer prompt care with same-day appointments available at our Cumming location.

Let our **unparalleled expertise** help **your athletes and their families** return to the activities they enjoy!
